MESSAGE FROM THE **PRESIDENT**

Virginia Horvath, Ph.D.

At the heart of any university is the strength of its academic programs, and that strength depends on the faculty and their engagement in their disciplines. Although Fredonia is known for exceptional teaching, there would be little to teach if faculty were not themselves active in scholarship and creative activities.

This publication, which summarizes faculty professional accomplishments, attests to the significant work being undertaken across all academic divisions. I am proud of what Fredonia faculty publish, present, perform, and record—and I know that these accomplishments lead to greater opportunities for students to learn about and connect to their fields of study.

With congratulations and thanks to all who are featured in this publication.

Virginia S. Horvath

Virginia Schaefer Horvath
President

MESSAGE FROM THE PROVOST

Terry Brown, Ph.D.

As this publication demonstrates, faculty at the State University of New York at Fredonia are actively engaged in their professions, as researchers, scholars, and creative artists and performers.

They produce scientific inquiry, scholarly analysis and critique, artistic expression, and community-based research in the arts, business, education, and the natural sciences.

They have represented Fredonia in the pages of books and articles, at the podiums of national and international conferences, on stages and in galleries around the world. They bring that spirit of inquiry and creative expression to their work as teachers, inspiring our students with their passion for their discipline, often involving students in their research, scholarship, and creative activity.

I hope that this publication, which we intend to publish annually, will serve as public recognition of their hard work.

I offer my sincerest congratulations and gratitude for their contributions.

Terry Brown

Provost

I wish to acknowledge the efforts of the following individuals who provided their time and expertise in the creation of this publication: Paul Benson, Dawn Eckenrode, Erin Ehman, Katerina Grein, Chris Taverna and Jeff Woodard.
